Technical Lead | Backend Architect | Node.js | Go | Python | Microservices | Distributed Systems | Kafka | Kubernetes | AI/LLM | RAG | pgvector

Technical Lead / Backend Architect with **8+ years of experience** designing, building, and scaling **FinTech, BFSI, and enterprise platforms**. Hands-on expertise in **Node.js, Go, Python/FastAPI, Kafka, PostgreSQL, Redis, Kubernetes, and AWS**, with strong experience in **microservices, distributed systems, event-driven architecture, multi-tenant SaaS, and API design**. Led **6+ engineers** across **architecture, technical decision-making, code reviews, mentoring, engineering standards, sprint planning, and production releases**. Experienced in **system design, performance optimization, CI/CD, cloud and hybrid infrastructure, security, observability, and production reliability**. Built **AI-powered RAG solutions** using **Python, FastAPI, Pydantic, Ollama, embeddings, and pgvector**.

SKILLS

- **Languages:** JavaScript, TypeScript, Go, Node.JS, Python
- **Frontend:** React.js, Angular, React Native, Redux, Next.js
- **Backend:** Node.js, Express.js, Fastify, Hono.js, NestJS, GraphQL
- **Databases:** MySQL, MongoDB, Redis, Valkey, PostgreSQL, pgvector
- **Cloud & DevOps:** AWS, Docker, Jenkins, Rancher, GCP, GitHub Actions, Kubernetes
- **Messaging Systems:** Kafka, RabbitMQ
- **Testing:** Jest, Mocha, Cypress, React Testing Library
- **Blockchain:** Solidity, Web3.js, Ethers.js
- **Observability & Monitoring:** OpenObserve, Prometheus, Grafana
- **Authentication & Security:** JWT, Argon2, OAuth 2.0, RBAC
- **Code Quality & Tools:** SonarQube, Git, GitHub
- **Payment Integrations:** Stripe, Razorpay
- **Architecture:** Microservices, Distributed Systems, Event-Driven Architecture, Multi-Tenant SaaS, REST APIs, GraphQL, System Design, Domain-Driven Design (DDD)
- **AI & LLM:** Retrieval-Augmented Generation (RAG), Prompt Engineering, Vector Search, GitHub Copilot, Cursor, Claude Code, Ollama, embeddings

EXPERIENCE

Technical Lead

Jan 2026 - Jun 2026

First Credit Services | Mumbai, India

- Led the **v2 re-architecture** of a large-scale credit lending platform into scalable **DDD-based microservices** using Node.js, PostgreSQL, Kafka, Redis, and Kubernetes across hybrid cloud/on-prem environments.
- Led a **6+ engineer team** across architecture, code reviews, mentoring, engineering standards, sprint planning, and releases; designed **multi-tenant architecture** using **PostgreSQL** and **Redis**.
- **Built an AI-powered RAG assistant using Python, FastAPI, Pydantic, Ollama, pgvector, and embeddings, with structured validation and a guardrail-oriented architecture for controlled and grounded responses.**
- Optimized PostgreSQL **query plans, indexing, and partitioning**, reducing critical API response times by **35%**.

Technical Lead

Jul 2025 - Jan 2026

Periscope Technologies | Mumbai

- Architected a connected healthcare platform with a custom smart app collecting patient health metrics, including heart rate and other vital readings, for centralized doctor access.
- Designed **multi-tenant healthcare architecture** supporting controlled access to patient data, doctor profiles, appointments, availability, and scheduling using **Python/FastAPI, Go, Node.js, PostgreSQL, Redis, Kafka, and Kubernetes**.
- Developed **FastAPI-based backend services** using **Pydantic** for request/response validation and schema modeling, integrating PostgreSQL and Redis for healthcare data and high-performance API workflows.
- Implemented **event-driven architecture** using Kafka and the **Transactional Outbox Pattern**, with secure JWT, RBAC, TOTP MFA, Argon2, refresh-token rotation, and Redis-backed sessions.

Senior Software Developer <i>ETeam InfoServices Private Limited</i> Mumbai, India - Built Node.js and Go microservices with PostgreSQL and Kafka for enterprise insurance and real-estate risk management workflows, including policy processing and property assessment. - Implemented Kafka-based asynchronous workflows and production CI/CD using GitHub Actions, Docker, Kubernetes, and Rancher.	Sep 2024 - Jan 2025
Senior Software Developer <i>SMFG India Credit</i> Mumbai, India - Modernized lending platform services using Node.js, PostgreSQL, Redis, RabbitMQ, React.js, and Angular, supporting customer-facing and operational applications. - Designed a configuration-driven Go API Gateway for centralized request routing, authentication, rate limiting, and dynamic service configuration. - Led migration from RabbitMQ to Apache Kafka for more scalable asynchronous processing and improved fault tolerance.	Jun 2023 - Sep 2024
Senior Software Developer <i>HCL Technologies</i> Mumbai, India Developed scalable enterprise applications using Node.js, Express.js, React.js, GraphQL, and Redis, improving backend and application performance through caching and optimization.	Sep 2022 - Jun 2023
Software Developer <i>Vernost Marketing Technology Solutions Pvt. Ltd.</i> Mumbai, India Built reusable Node.js REST APIs and React/Angular applications, improving performance through Node-cache, modular backend architecture, and reusable components.	Sep 2021 - Sep 2022
Software Developer <i>Blockworks Technologies Pvt Ltd</i> Mumbai, India Developed Ethereum smart contracts and decentralized applications using Solidity, Web3.js, Node.js, and React.js, integrating Stripe, PayPal, and cryptocurrency wallets.	Jun 2020 - Sep 2021
Software Developer <i>Dealmoney Securities Private limited</i> Mumbai, India - Developed an internal Loan Management System (LMS) using Node.js and React.js for loan processing, customer management, repayment tracking, and administrative workflows. - Built REST APIs and internal dashboards on self-managed infrastructure, using Redis caching to improve application performance.	Jul 2018 - Apr 2020
EDUCATION	
B.E, Computer Engineering University of Mumbai, Mumbai, India	Aug 2014 - Jun 2017
Diploma, Computer Technology MSBTE, Mumbai, India	Jul 2010 - May 2014
